head of the lakes and the tie-up of traffic resulting from the strike of the switchmen is practically remedied. If the situation is not quickly remedied, 10,000 men will be out of work here within forty-eight hours. The railroads, mines, coal docks, ore docks, elevators, blast furnaces and all other industries will contribute to the unemployed. The Northern Pacific has two engines in operation, manned by two men not members of the union. The grain men have been perhaps helped by the strike. The local market is in confusion today with the prospect of heavy losses. Every man engaged in the handling of grain faces loss through being forced to break contracts. A delay of even a few hours is serious for the insurance on all boats and cargoes on the lakes expires December 2.

### On Docks Are Empty.

SUPERIOR, Wis., Dec. 1.—Not a switch engine in Superior was doing service today. The Omaha had one engine switching passenger trains, but freight was completely tied up.

The ore docks were emptying their packets preparatory to stopping work. By the end of the week, the present outlook is that at least 7,000 men in Superior will be out of work.

MISSOULA, Dec. 1.—Not a freight car was moved in the Missoula yards of the Northern Pacific last night or today. Passenger service was handled. A meeting of the Brotherhood of Railway Trainmen convened today.

## MANY CHANGES FOR THE ARMY

(Continued from First Page.)

be held responsible for their mobilization and general condition.

It is proposed to submit the adoption of such a plan to the governor of the several states. If the states announce their willingness to co-operate with the War department steps will be taken toward putting the plan into action.

The matter of a general rearrangement of the various army posts occupies a prominent place in the report. The rearrangement of war expresses his conviction that, as now situated, the army posts do not meet the requirements of the service, many of them being isolated and difficult of access.

"The majority of these posts, he points out, sprang into existence because in the early days of the west the regular army was largely used for the protection of settlers from the Indians. The Indians have long since ceased to be a menace to the whites, and the posts have outlived their usefulness. The army authorities now set forth that tactical and strategic necessities require the locating of such army headquarters near the large cities, in close proximity to centers of transportation, and with a view to co-operation with the militia.

### Troops Near Large Cities.

"Hence, the three requirements," says Secretary Dickinson, "economy, possibility of rapid movement and training of the militia, would all be met in the most effective manner if the troops were stationed in or near the principal cities; and this is the course which the general staff believe should be pursued."

During the fiscal year three eight-inch and twenty-four rapid-fire guns were added to the coast defenses of the United States. It also declared that the coast defenses in the country's insular possessions are in a forward state of construction. Special mention is made of the increasing efficiency in marksmanship shown by the men who served the guns in the sea coast batteries and also in the field artillery of the army. Praise also is given the men of the regular army for excellent records made with small arms.

Among a great number of other matters touched upon in the report, Secretary Dickinson speaks briefly but approvingly of the aeroplane and dirigible balloon as engines of war. He adds, however, that because of the necessity for retrenchment, he will submit no plan to congress this year for an appropriation to admit of the purchase of a proper aeronautical equipment for the army. He adds, however, that "the fact must be recognized that all first-class powers except the United States are providing themselves systematically with aerial fleets. Germany and France being notably in the lead."

### New Postmasters.

WASHINGTON, Dec. 1.—(Special Telegram.)—Postmasters appointed for Alaska are as follows: E. Wood, Hooker county, Lenora Tucker, vice M. E. Wood, Valdez; George W. Custer, Copper River; Street W. Peirce, vice P. P. Back, resigned; Fort Smith, Alaska; Lebanon, Potter; Fort, J. J. Seymour, vice R. M. Carr, resigned.

## BUDGET FIGHT UP TO VOTERS

Rejection by Lords to Be Followed by Prorogation of Commons.

### STRUGGLE TO BEGIN AT ONCE

Premier Asquith Will Present Motion in Lower House Protesting Against Usurpation of Power by Peers.

LONDON, Dec. 1.—Premier Asquith announced in the House of Commons that tomorrow he would move a resolution that the action of the House of Lords in refusing to pass into law the financial provisions made by the lower chamber for the expenses of the year were a breach of the constitution and an usurpation of the rights of the House of Commons. When the premier entered the chamber this afternoon, the supporters of the government rose to their feet and greeted him with ringing cheers. Immediately following the conclusion of routine business the prime minister took the floor. As soon as he concluded the house adjourned.

In introducing his resolution tomorrow Premier Asquith will go exhaustively into question of the respective privileges of the House of Lords and the House of Commons and state in detail the government's intentions. He also will fix the day of prorogation, which probably will be next Friday.

Former Premier Balfour, leader of the opposition in the commons will reply setting forth the view that the new and important departures in public policy represented by the budget bill should be submitted to the people. John Redmond, head of the Irish party, and possibly one representative of the labor party will follow with speeches.

### Crisis Developing Rapidly

The political crisis caused by the unprecedented action of the House of Lords in refusing its consent to the government's budget is developing rapidly.

The cabinet, which had already determined on the policy it would pursue in the event of Lord Lansdowne's amendment being carried, had an unusually early meeting today to confirm its decision and consider the wording of the motion which Premier Asquith will ask the House of Commons to adopt.

All the members of the cabinet were present at the meeting, which excited so much popular interest that a great crowd gathered in the vicinity of No. 1 Downing street, the official residence of the premier.

The fact that there was not a remote possibility even that the crowd would learn what transpired within did not discourage the throng in the street, whose numbers became so great finally that a large force of police was summoned to prevent a possible demonstration.

The ministers passed through the street to the premier's residence undisturbed by suffragettes and encouraged by the cheers of their supporters.

### Prorogation Will Come Soon.

The time of the delivery of the speech of prorogation, the substance of which was decided at yesterday's meeting of the cabinet, will depend on the time occupied for debate on the premier's motion, which commences tomorrow. It is expected, however, that this discussion will be brief, the speeches, by prearrangement, being confined to the leaders of the unionists, liberal labor and Irish parties.

Parliament will be prorogued doubtless until the middle of January, but the choice of a date is a mere formality as the present house comes to an end by dissolution early in the year.

The election campaign will open in earnest on Friday, when David Lloyd-George, chancellor to the exchequer, and Winston Spencer Churchill, president of the board of trade, who are held chiefly responsible for the budget, and Lord Lansdowne and J. Austen Chamberlain, the most ardent opponents of the government's measure will deliver speeches and, with the exception of a brief respite at Christmas, will continue the fight until May.

### Struggle a Notable One.

In many respects the impending struggle will be the most interesting in the parliamentary history of England. Some of the peers have decided to take the unusual course of stumping the country to explain their action in voting against the budget. This course is being followed by many of the lords to be imperative following the criticism which fell from the lips of some of the staunchest of the unionists during the recent debate.

Lloyd-George, Churchill and other radicals can be depended upon for fine speeches in favor of the budget and against the board of trade, while Sir Edward Grey, foreign minister; Richard Burdon Haldane, minister of war and other ministers will supply more moderate ammunition and free trade arguments. The unionists, although not so well equipped with arms, are determined upon a stern campaign. They will devote their energies to the exposition of tariff reform and a denunciation of socialism, towards which they will claim the budget is a first step.

The suffragettes too, who have been comparatively quiet for a time, have been actively resuming their resources for a crucial effort.

The laborites, all strong supporters of the budget will meet tomorrow to arrange their campaign and efforts are being made, and with some success, to prevent a three-cornered contest.

As a part of this program the laborites are withdrawing their candidates from those districts where the liberals have the better chance of success, while the unionists are doing the same for the labor party, where the latter is stronger.

The election in Ireland will be the most interesting since 1885. The unionists have decided to contest most of the nationalist seats with the idea of depleting the nationalist treasury.

### SENT FORTUNE TO LAUNDRY

Iowa Has \$1,200 Sewed Up in Underwear—Returned by Young Woman.

CHEYENNE, Wyo., Dec. 1.—(Special Telegram.)—To the honesty of Miss Blossom Mahoney, head marker at the Geyser laundry, A. L. Biddle of Rock City, Ia., is indebted for the return of \$1,200, which he carelessly sent to the laundry, sewed in the waistband of a pair of underdrawers. Miss Mahoney detected the crackle of paper in the waistband of the garment and was about to be placed in the tub and investigated. Making a small slit in the garment, she reached in and drew out a slip of paper. She nearly fainted when she saw that it was a \$100 bill. Further exploration of the interior of the band brought forth eleven other bills of the same denomination.

Miss Mahoney at once reported her find to J. C. Foley, proprietor of the laundry, and turned the money over to him. The garment in which the money was found had been dropped in the slot at the laundry provided for the receipt of garments brought to the place after the working force had departed, and although Biddle's name was on the bundle, the laundry proprietor did not know where the man resided and had no way of tracing him. So the money was placed in the bank and

# Relieve the heating burden!

"Too big a load"

Your lot is not a happy one if you have to carry the burden of old-fashioned heating—which requires a tremendous amount of fuel to produce but little heat, and constantly "gets out of order."

## AMERICAN & IDEAL RADIATORS & BOILERS

will lift that load off your shoulders. IDEAL Boilers and AMERICAN Radiators produce the maximum amount of heat from the fuel and do not get out of order. They save the heat for the rooms instead of letting the most of it escape up the chimney, as is the case with old-fashioned heating methods.

**ADVANTAGE 11:** The phenomenal success of IDEAL Boilers is also largely due to the fact that they are made in sections so that even their largest parts can be carried through an ordinary size doorway. For this reason they can be quickly installed in old houses without disturbing the occupants. No tearing up necessary—in fact, in unmodernized or old types of houses IDEAL Boilers can be erected, including the necessary piping and radiators, without the necessity of removing the stove or hot-air furnace until the new heating outfit is ready to fire up. For this reason IDEAL Boilers can be quickly installed in winter weather when the old, crude heaters get badly worn or collapse.

IDEAL Boilers and AMERICAN Radiators for Hot-Water or Low-Pressure Steam heating make the most scientific, simple, safest, surest outfits for warming any building, large or small, OLD or new, FARM or city. IDEAL Boilers consume less coal (or cheapest screenings) to heat the whole house than a stove consumes of expensive hard coal to heat a few rooms. Every known improvement and many exclusive features make IDEAL Boilers and AMERICAN Radiators the most efficient and economical in the world, yet our enormous volume of sales enables us to put the price within reach of all.

A No. 310 IDEAL Boiler and 400 ft. of 3/4 in. AMERICAN Radiator, costing the owner \$205, were used to Hot-Water heat this cottage.

A No. 22 IDEAL Boiler and 250 ft. of 3/4 in. AMERICAN Radiator, costing the owner \$115, were used to Hot-Water heat this cottage.

At these prices the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which installation is extra and varies according to climatic and other conditions.

## FATAL GUN FIGHT IN STREET

One Killed and Two Fatally Wounded at Kiefer, Okl.

### DUE TO KILLING MONTH AGO

Brother of Gambler Shot by Marshal Starts Trouble and is Killed After Wounding Two Others.

KILFER, Okl., Dec. 1.—One man was killed and two fatally wounded in a street fight with revolvers here early today. The dead:

MELVIN GOLEY.

Fatally wounded: Deputy Marshal Gooch and Thomas Boxler, a carpenter.

The shooting grew out of the killing a month ago of Homer Ooley, a gambler, by Marshal R. P. Highnote.

When Melvin Ooley, Homer's brother, met Marshal Highnote and Deputy Marshal Gooch he took them to task for the death of his brother. The argument waxed warm and finally Ooley drew a revolver and shot Gooch, inflicting a fatal wound.

As Gooch dropped to the ground Ooley struck him about the head with a rifle stock. Highnote, who had been taken by surprise, had by this time drawn his revolver and began firing.

Ooley returned the fire and in the exchange of shots Ooley was killed and Boxler, a bystander, was shot in the head and probably fatally wounded.

Gooch was removed to a hospital. He has but slight chance of recovery. Excitement ran high following the shooting and for a time a pitched battle between the friends of Ooley and the authorities was threatened.

### CRESTON OPERA HOUSE

ALMOST TOTAL LOSS

New Structure Owned by Masons Burned by Sparks of Spontaneous Combustion.

CRESTON, Ia., Dec. 1.—(Special Telegram.)—The \$40,000 opera house, the Temple Grand, built a few years ago by the Masonic order, was gutted by fire and water this morning and the opera house will be an entire loss. The building contained behind the opera house lobby rooms and offices, and these, it is thought, will not be as badly damaged.

The fire originated in the basement from spontaneous combustion of a carload of fine coal and it is thought had been smoldering all night before the explosion occurred, about 8:30 this morning. The entire back part of the building was a

"The following officers were elected: "D. G. Reid, chairman of the executive committee; R. A. Jackson, vice chairman of the executive committee; H. U. Mudge, president.

"The meeting adjourned until tomorrow for the election of additional officers and the transaction of other routine business.

"At a meeting of the board of directors of the St. Louis & San Francisco Railroad company, held this morning, the following were elected as the executive committee of the company:

"B. F. Yoakum, Edwin Hawley, R. L. Winchell, James Campbell, Frank Trumbull, E. V. H. Thayer, Thomas H. West.

"The following officers were elected: "B. F. Yoakum, chairman of the executive committee; B. L. Winchell, president.

Novelties—FRENCH—16th and Dodge.

## Land on Roads Back to Farmers

Governor Carroll in Favor of Returning What is Not Used to Owners.

### DES MOINES, Ia., Dec. 1.—(Special Telegram.)—Governor Carroll went on record before the convention of the Iowa Implement Dealers' association in favor of the 100,000 acres of land on each side of the county roads. "We are putting aside sixty-six feet for roads where only twenty feet is used," he said. "I think that instead of letting the land lay idle all but thirty-three feet should be given back to the people from whom it was taken and let them cultivate it." These remarks were loudly applauded by the 100 implement dealers from all over the state whom the governor welcomed to the city.

### TOPEKA CLUB

Spurns Stubbs

### Exclusive Organization Refuses to Allow Kansas Governor to Be Entertained There.

TOPEKA, Kan., Dec. 1.—The Topeka club, Topeka's most exclusive social organization, today by vote of the board of directors, refused to permit Governor Stubbs to be entertained at the club. The occasion is a banquet to Chief Justice Johnston to be given Thursday night by Del Valentine, clerk of the supreme court. Governor Stubbs was scheduled to speak. Governor Stubbs was formerly a member of the club, but withdrew because the club would not abolish the locker system for keeping liquor at the club house.

### Hargis Sentence Affirmed.

FRANKFORT, Ky., Dec. 1.—The court of appeals today affirmed the life sentence given Bench Hargis for the murder of his father, former judge James Hargis, the noted feudist of Jackson, Ky.

### To Stop a Cough In a Hurry.

With this recipe you can make a pint of cough remedy at home in five minutes. A few doses usually conquer the most obstinate cough. Simple as it is, no better remedy can be had at any price.

Put 2 1/2 oz. of Pinex (fifty cents worth) in a clean pint bottle, and fill up with Granulated Sugar Syrup, made as follows: Take a pint of warm water and stir for 3 minutes. Take a teaspoonful every one, two or three hours. The taste is very pleasant—children take it willingly. Splendid, too, for colds, chest pains, whooping cough, bronchitis, etc.

Granulated Sugar makes the best syrup. Pinex, as you probably know, is the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine extracts will take its place. If your druggist hasn't the real Pinex, he can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup—Adv.
